

Recommendation letter

To whomever it may concern,

I am director & screenwriter, and have worked with Helge Alexander Diego Forland on several projects. Including three short films where I have cast him in the lead.

The fall of 2013 was the first time I worked with Helge, who had limited experience in acting at this point. Even though his experience was limited, his talent was not. He did a great job, leading to us working together on several film projects since, as well as other filmmakers in the local community, some of them after discovering him in my films.

Since this time, Helge has grown to be a very talented actor, and I see great potential in him.

I would say his strength as an actor is analysing of the character's he is portraying, leading to a very authentic performance.

He is dedicated and works very hard on every role he is cast to play.

Should you want any example of his work, don't hesitate to contact me.

Sincerely,

Simon A. Kristiansen
